

And Data Sharing

Breakout DBC Conference
July 1, 2024

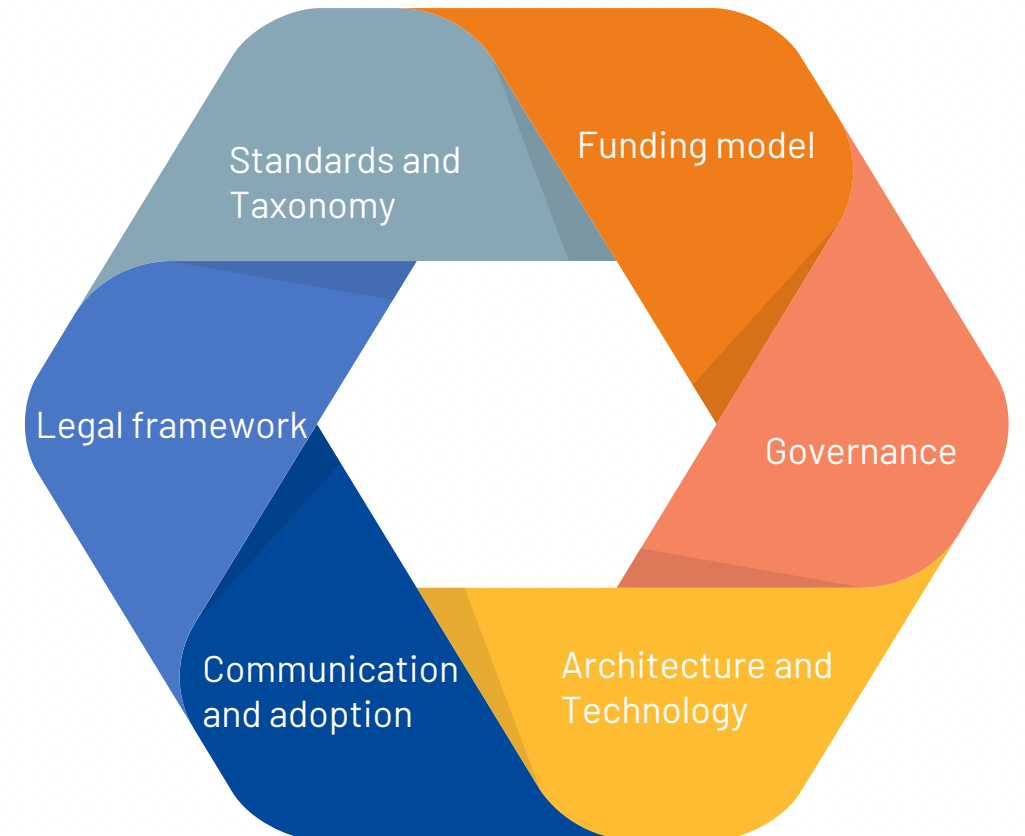

Company Passport partners

The Journey

The Company Passport is a **Trust Framework (TF)** leveraging eIDAS to enable *safe* and *seamless* trade with other businesses, consumers and interaction with public parties.

Business interactions		Authorize employees to act on behalf of the company	Form a company		Provide notary certificates as attributes	
Apply for subsidies, permits, tenders	Rent and Buy Real Estate 		Prove authorisation to vendors and other commercial partners (e.g., for buying...	Open a bank account, while providing all relevant KYC/CDD documents		Provide registration Chamber of Commerce as attribute 
Receive recognitions and certificates (e.g. ISO) as credentials and be able to distribute as such	Empower horizontally					Provide tax registration numbers as attributes
Take out insurance	Share tax information; file tax returns; seamless taxation	International trade	Customer Due Dilligence		Provide tax liability in a country as attribute	
			Preventing turboliquidations	Share relevant KYC data
